

## COMPANY PROFILE

**AL BALQA GENERAL TRADING CO. LLC (ABGT)** was established in 2013 in Dubai, UAE. We are expert in management, trading, sales, rental and service of heavy construction lifting equipment, truck spare parts and smart solutions (fleet, fuel, diesel management systems).

### OUR MISSION

To provide quality products & professional services to our customers through years of experience gained in PMV management and related services. We strive to be "Your Trusted & Reliable Construction Equipment Supplier & Service Provider".

### OUR VISION

To achieve the highest level of recognition as "Professional Equipment Solution Provider" all over United Arab Emirates.

### VALUES

We value:

- ✓ The concept of trust and integrity by way of untiring commitment to 'always do what is right'.
- ✓ Our employees respect the diversity of their ideas and cultures.
- ✓ Recognize the critical contribution that employees of a privately-owned company play in supporting the economy and other needs of our country.
- ✓ Treasure our clients and deliver excellent service and customer care by way of keeping schedules and quality standards of construction.
- ✓ We are committed to continuous improvement through training and shared best practice.
- ✓ environmental stewardship by way of striving to construct projects with due concern for the preservation, protection, conservation and restoration of our resources

## EQUIPMENTS & SERVICES

### HEAVY CONSTRUCTION LIFTING EQUIPMENT

ABGT provides sales, rental and services for the following heavy construction lifting equipment in the UAE. Also, we can supply equipment and spare parts in the GCC and MENA (Middle East & North Africa) region.

1. **Tower Cranes**- We have all types of brand new and used tower cranes such top-kit tower cranes, topless tower cranes, luffing jib cranes and derrick cranes in different capacities. In our fleet (but not limited to), are the following famous and topquality tower crane brands:

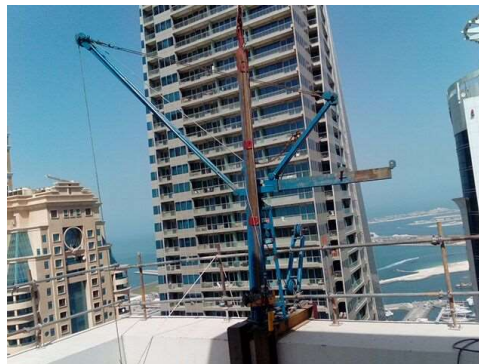

- LIEBHERR
- TEREX COMEDIL
- POTAIN
- QLCM
- YONGMAO
- SYM
- SCM
- ZOOMLION

### DERRICK CRANE

2. **Construction hoists** – Single and double cabin passenger and material hoists can be supplied at your project site according to your needs, whether for construction of buildings or special industrial structures.

The general building hoist is simple and cost saving, easy to install and maintain. The frequency conversion building hoist has power saving, start current is lower than rated current, running at various speed up to 96m/min, frequency convertible control system and run smoothly at starting and braking, reduce the fray.

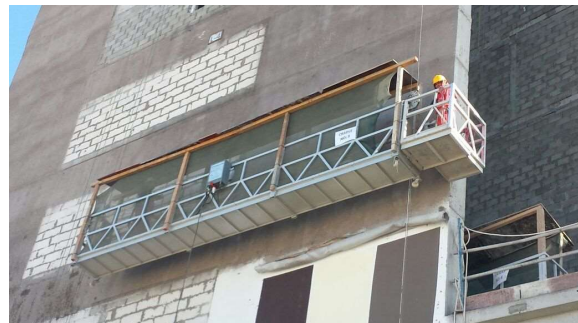

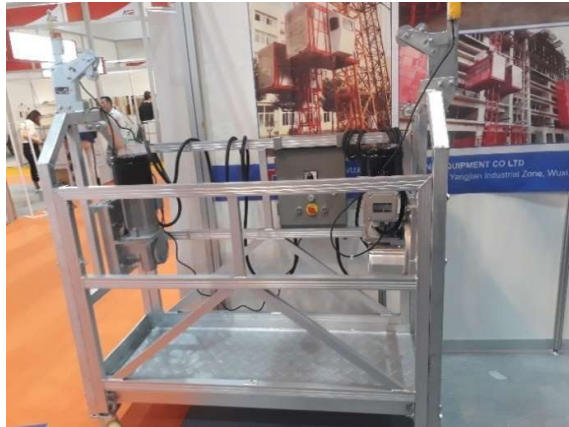

Top hoist brands included but not limited to the following:

- GJJ
- Truemax
- Alimak
- Zenith

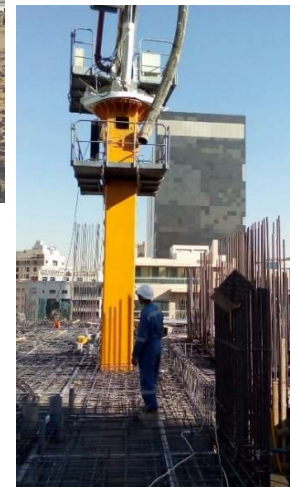

3. **Suspended platforms / cradles** – provide temporary access to heights for building maintenance, at construction or in industrial sites. **ZLP series cradles** are widely used in building maintenance and construction.

4. **Concrete placing booms – HG Series concrete placing booms** – This series has reasonable design and reliable structure. The placing structure adopts 360° rotary arm support and operated by hands and can rotate flexibly. The tower is of a proper height so you can change the placing position freely just through pulling the robe easily. It is highly efficient, reliable and economic.

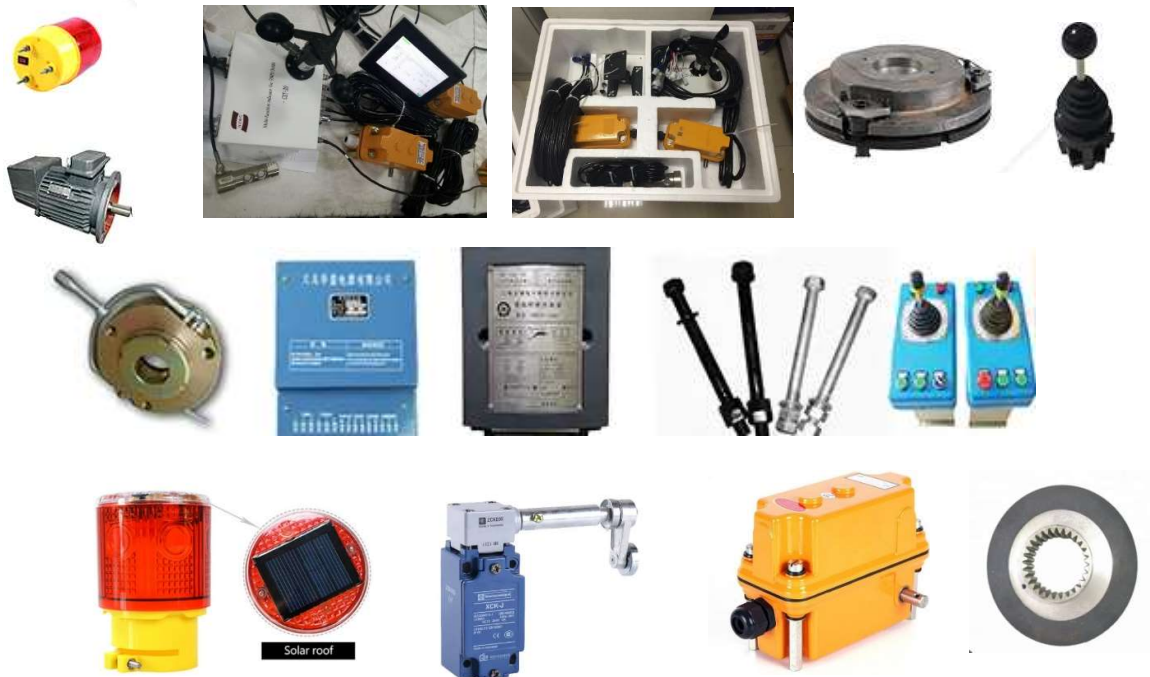

## SPARE PARTS

We have a wide range of original and OEM spare parts available in our stocks with competitive prices.

**Heavy construction equipment spare parts** – We can offer spare parts and accessories for tower cranes, construction hoists, cradles, placing booms, mobile cranes and other equipment such as anti-collision system, mast sections, inverters, safety devices, electrical and mechanical parts including but not limited to contactors, rectifiers, relays, power and control cables, motors, gears, pumps, hydraulic jacks and wire ropes.

## TRUCK SPARE PARTS

Original and OEM spare parts for the HINO, MAN, SCANIA and RENAULT trucks are readily available in our stocks at affordable prices. We have AC compressors, condensers, evaporators, clutch release bearings, cable assy transmission, oil filters, V-belts, alternators, starters, thermostat, heavy duty cables, and many other genuine parts.

1. HINO 300, HINO 500, HINO 700
2. MAN
3. SCANIA
4. RENAULT

## SERVICES

1. Technical support - We have talented, hardworking, and well-qualified tower crane engineers. We strictly follow the local and international safety standards in all our projects activities. We are specialized in critical dismantling and lifting from high rise towers and we have dedicated teams for the following services:
  - Erection of tower cranes, hoists, cradles, placing booms
  - Dismantling of tower cranes, hoists, cradles, placing booms
  - Breakdown attendance
  - Equipment repair and servicing
2. Maintenance - We ensure you get your return on investment by providing many benefits along with our cranes and hoists. These services include but are not limited to the refurbishing, painting, stocking and of course fixing of cranes and hoists. Monthly

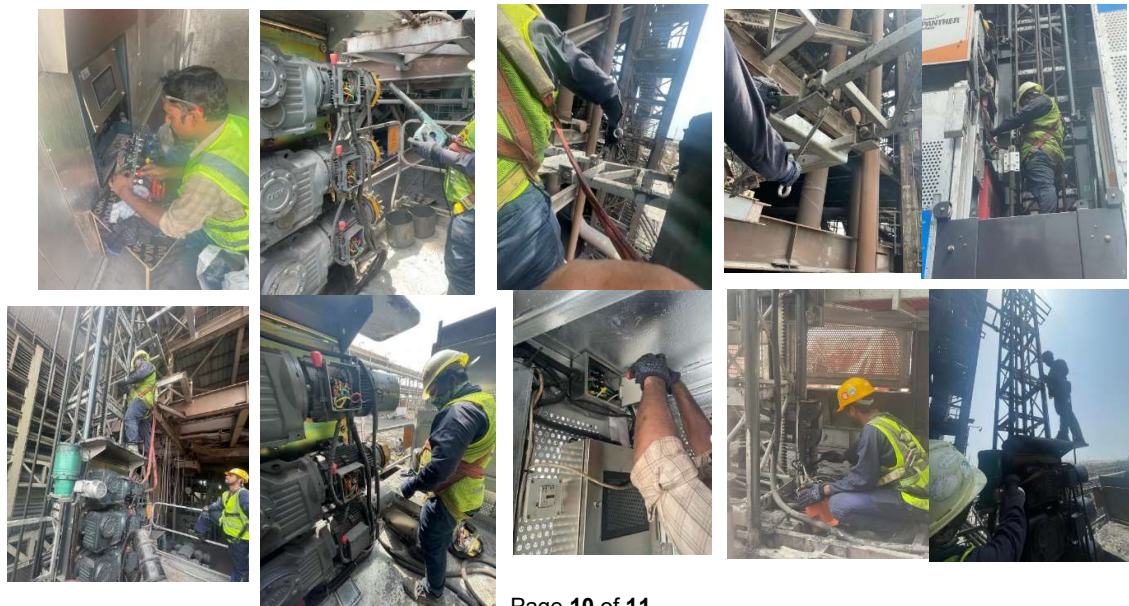

preventive maintenance and annual maintenance (AMC) are also available according to your equipment requirements.

3. Training - Upon request, we can train the client's team to be fully independent with operating our tower cranes. Training programs include mounting and dismantling of equipment, safety rules and a comprehensive learning on tower cranes and hoists.
4. Sales support – We can propose several trading possibilities for our products to ensure flexibility and higher customer satisfaction. These options include several financing methods, buy-back, lease-to-buy, crane exchange and short/long term lease contracts.

**Below images were our team doing maintenance for hoist located at St Sohar Port in Oman**

We are proud to work with the following companies and be part of their projects' success.
